Teen Leaders:
Teen leaders are needed for District Jr. Leadership Lab. If selected as a teen leader, you will serve in a teaching or assisting role for one of the sessions or a facilitator for group games or ice breakers. If you are selected you will be contacted with details regarding your session.

Please email Caroline Cruz at cmcruz@ag.tamu.edu and Kristy Titzman at kristy.titzman@agnet.tamu.edu if you are interested. Must be a senior age 4-H’er.
The objective of Junior Leadership Lab is to prepare intermediate age 4-Hers from the 18 counties in District 9 for leadership roles. These roles might be at the county level or their clubs. The hope is that participants will take information back from lab and share it with members back in their counties. The lab is set up to be enjoyable and fun, but there is work too. The sessions require participant involvement and concentration.

Ages 11 to 13 are encouraged to attend. Play time is set up with activities that build team work skills and camaraderie in the district. Want to be a Teen Leader? See the back of this brochure.

Who: Intermediates (ages 11 to 13)
When: November 14-15
Why: To gain leadership skills and to have fun while learning more about 4-H natural resources projects.

Junior Lab—What will we do?

This year’s Jr. Lab will focus on the 4-H Natural Resources project areas, utilizing skills and team building activities to teach leadership. Some of the activities planned include archery, outdoor skills, wildlife ID, and other activities that are available at the camp. We hope you will enjoy the nature and setting of Carolina Creek and take the opportunity to grow your leadership skills with fellow 4-H’ers!
