

Credit Card Payments

If the local county office allows a credit card payment method, it can be added the first time you pay for something. The credit card must be a valid bank-issued debit/credit card or a prepaid debit card with sufficient funds available. The address on the family profile must match exactly to what is on file with the bank/credit card company.

ADD CREDIT CARD

Click the **“Add New Card”** button or start typing the information in.

Once completed, click the **“Add Credit Card”** button.

Card information can only be added, viewed, and edited by a family member in the family profile. Texas A&M Agrilife Extension employees and county employees cannot access or edit card information from their logins.

Note: Once you add a card, it will be available for you to select for future purchases. If you already have a payment method saved in your family profile, you may select the existing card or add a new card while checking out.

ACCESS/EDIT CREDIT CARD

Click the **“Credit Cards”** link to access credit cards already on file.

A list of credit cards will be displayed. Click the credit card to make adjustments to.

Texas A&M Agrilife Extension employees and county employees cannot add, access or edit card information from their logins.
