

Family Password Options

Option 1

Click the **“Reset Password?”** link.

Type the email address. This information is case sensitive so make sure to type it exactly how it was originally submitted.

Click the **“Reset Your Password”** button.

A message and new password will be sent to the family email address on the account. You may need to check your spam or junk mail folder for an email from the 4HOnline.

See “Option 2” if:

1. You do not receive your password within 45 minutes after submitting this request.
2. If you receive a message that an “No account with that email address has been found”.

Option 2

Contact your local county extension office for assistance. The county office can perform a member search to update a family email address. <https://counties.agrilife.org>
